

HOW TO PLAY

CLUE
SOLVING THE MYSTERY OF LASTER

1. GET TWO FRIENDS!

You'll need three people to play this game.

2. MAKE THREE PILES OF CARDS.

One pile of people, one pile of places, and one pile of things. You should have 12 cards total.

3. SHUFFLE EACH PILE OF CARDS.

Keep them separate!

4. REMOVE ONE SECRET CARD FROM EACH DECK.

Don't look! Put all three cards face down on the table. Don't touch them until the end of the game! Your goal is to figure out which three cards are missing from the deck.

5. SHUFFLE AND DEAL THE REMAINING CARDS.

Shuffle all of the remaining cards together. Then give everyone an equal number of cards.

6. TAKE TURNS INVESTIGATING EACH OTHER.

On your turn, choose one person to investigate and two cards to ask them about. You might ask them, "Do you have Peter or the fish?" If they have at least one of the cards you asked about, they must choose one (just one) and secretly how it to you. If they don't have either card, they'll say, "Keep investigating!" Then your turn is over. Take notes on what you learn.

7. DISCOVER WHAT'S MISSING

When you think you know which person, place, and thing is missing from the game and lying face-down on the table, you can make an official guess. Tell everyone your guess, then check the cards. If you were wrong, put the cards back and let everyone else keep playing. If you were right, you win!
